TO: Parking Advisory Board
FROM: Anna Gilligan, Parking Operations Manager
SUBJECT: Update on Parking Changes
DATE: 01/03/25

Lot A (Stockgrowers Lot) relocation

At the direction of the City Attorney, all permits in Lot A (Stockgrowers Lot) have been relocated to nearby parking locations effective January 1, 2025. The majority of the permits have been relocated to the parking structure, as it is the closest available parking for many permitholders.

Tap-to-pay update

As of the October 2024 Parking Advisory Board meeting, 150 of 660 meters had been upgraded to fix the tap-to-pay option on the meters. As of December 31, about 220 of the meters have been upgraded. This is under warranty, so there is no cost associated. We're sending them back for the upgrade in conjunction with other routine repairs.

Sensor update

As of the October 2024 Parking Advisory Board meeting, IPS had requested additional information be gathered before determining next steps with the sensors.

After discussion at the October meeting, Board President Domico Rodriguez provided a letter voicing the board's dissatisfaction with the progress made with the sensors. This letter was provided to IPS during a meeting at which IPS leadership presence was requested. IPS confirmed that they understood the gravity of the situation, and said they would work to resolve the situation as quickly as they were able to. It was agreed that IPS would work as quickly as possible to send 50 new sensors and upgrade 50 of our meters to have the capability to work with them. Once the sensors and upgraded meters are on-site, IPS will send a tech for installation and set-up. This will occur at no cost to the City. IPS is working to secure the necessary approvals for the project to move forward.
